

MAINSTREAM

fiber networks
exceeding the speed of life

100% Fiber

Our network is 100% fiber optic cable delivered to your door. Your residence will be connected directly to fiber from our primary network. **Our team will install new fiber optic cable into your home.**

Unlimited Use

A fiber connection relies on the speed of the service you select. The amount of information that can be exchanged is not limited or throttled in any way so **you will never be charged for data use.**

Consistent Service

We don't gate keep our service or limit it by region, our speeds are consistent through all areas that we serve. **If service is available in your neighborhood, so are all our services and our fastest speeds.**
